

# 2021 Education Solutions

*Investing in Safe Schools: Antimicrobial, Antiviral, and UV-C Technologies*

# Intro

In 2020, ChargeTech emerged as a leading voice in antimicrobial, antiviral, and UV-C technology for education. Last year, ChargeTech delivered thousands of UV-C Clean and Charge Carts to classrooms across the country while developing new technologies that meet our rapidly evolving needs.

With the start of the new year and a second round of federal funding finally reaching schools, now is the perfect time to make lasting investments in school safety with ChargeTech's industry-leading suite of education solutions. Here is a look at what is available for 2021.

# Contents

Pg 4

UV-Clean and Charge  
Carts | Gen 2.0

Pg 5

Power Banks

Pg 7

ChillZ Face Mask with  
ViralOff Technology

# UV-C Clean & Charge Carts

Gen 2 | New for 2021

Our best-selling UV-C Clean and Charge Carts can simultaneously clean and charge up to 40 laptops, Chromebooks, or tablets at once. In 2021, ChargeTech is releasing a new generation of carts with upgraded reflective material and white dividers to improve UV-C exposure.

# Laptop Sleeve with ViralOff

## Exclusive Partnership with Polygiene

The CleanCharge Laptop Sleeve with ViralOff is the world's only Chromebook/laptop case with antiviral properties. Our sleeves are manufactured with high-dose ViralOff, an active ingredient which has been proven to eliminate 99% of SARS-Coronavirus.

# Antimicrobial Portable Power

First of its Kind with Antimicrobial Film

The AM 27K Portable Power Pack is the world's first battery pack with an antimicrobial film to repel harmful microbes, viruses, and bacteria. This high-capacity unit provides greater flexibility, allowing students and employees to safely work outdoors or from a distance without relying on a wall outlet.

# ChillZ Face Mask with ViralOff

Comfortable | Sustainable | Antiviral

This high-efficacy mask is sustainable, antiviral, and carefully designed to comfortably wear for hours.

- 3 Layers of Material
- Made from Reclaimed Ocean Plastic
- Treated with High-Dose ViralOff
- Infused with Cooling Mica Crystals for Comfort
